KISLAY RAI

+91-9452920073 raikislay1@gmail.com LinkedIn GitHub
Ahmedabad, India

Education

- **IITRAM (Institute of Infrastructure Tech. Research & Management)** Ahmedabad, India
  Bachelor of Technology in Computer Science; CGPA: 8.0 *2023 – 2027*
- **G.N. National Public School** Gorakhpur, India
  Class 12; Percentage: 84% *2022*

Experience

- **Infosys** Virtual Internship
  AI & Machine Learning Intern
  –Developed an AI-driven **Face Authentication** system using **MediaPipe** for robust biometric verification and 468-point landmark detection.
  –Integrated **Speech-to-Text (STT)** and **Text-to-Speech (TTS)** modules to create an interactive, voice-enabled user interface.
  –Optimized processing latency for real-time face tracking and natural language audio processing.
- **Zidio Development** Remote
  Software Development Intern *May 2025 – June 2025*
  –Developed **ExcelFlow**, a MERN application for automated Excel data processing and interactive visualization.
  –Integrated AI features for automated insights and built real-time dashboards using **Chart.js**.
  –Collaborated in an agile environment using Git for version control and Postman for API testing.

Projects

- **AI-Powered Smart Garbage Detection System** | ***YOLOv8, FastAPI, Flutter*** College Project
  –Developed a real-time garbage detection system using YOLOv8, training a custom model on ∼8000 images for automated waste identification.
  –Built a FastAPI backend for inference and integrated email alerts with location data and a Flutter app.
  –Reduced false positives using confidence, spatial, and temporal filtering techniques.
- **P2P File Distribution System** | ***Flutter, Kotlin, Bluetooth*** College Project
  –Built a decentralized mobile app for offline file sharing using multi-hop Bluetooth communication and mesh networking.
  –Reduced redundant transmissions using TTL-based propagation and unique file ID tracking.
- **Student Activity Center (SAC) Website** | ***Next.js, Tailwind CSS*** College Project
  –Built a high-performance, responsive official website for the university's Student Activity Center.
  –Implemented modern UI components with **Tailwind CSS** and optimized page delivery using **Next.js** SSR/ISR.
- **TeleMedicine Platform** | ***MERN, WebRTC, Socket.io*** Hackathon Winner
  –Built a healthcare portal supporting real-time video consultations and automated scheduling.
- **KisanMitra** | ***Python, React, Machine Learning*** Smart India Hackathon
  –Designed a soil quality prediction system to recommend crops based on environmental parameters.
- **BitLinks** | ***Node.js, Express, MongoDB*** Personal Project
  –Developed a full-stack URL shortener with custom aliases and real-time click analytics.

Technical Skills

Languages: JavaScript (ES6+), C++, Python, Dart, Kotlin, SQL
Frameworks/Tools: React, Node.js, Express, Next.js, Flutter, FastAPI, YOLOv8, MediaPipe, Git, Postman
Databases: MongoDB, SQL, Firebase

Achievements & Activities

- **Winner,** College Hackathon (TeleMedicine Project) *2024*
- **Participant,** NASA Space Apps Challenge *2023*
- **Core Member,** Alumni Relations Team - IITRAM *2023 – Present*
